

# Door Seals Installation Instructions:

## Step 1

Make sure the door jamb and stop are clean of dust and dirt.

## Step 2

Size the seal to the top and sides of your door and cut to fit.

## Step 3

On the hinge side of the door, place the seal directly on the door jamb. Remove paper backing.

## Step 4

On the top and handle side of the door, apply seal on the door stop. Remove paper backing.

## NOTE

Once adhered, check your door for any gaps. Shine a flashlight on any door cracks and see if light gets through.

## NOTE

If light gets through, consider adding another layer of door seal adhesive or adjust existing adhesive.
